REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicants have argued in the paper filed on 10/29/03 in response to the final office action present in the parent case that the combination of Joyce, Jr. et al and Troiani et al is not obvious. Applicants point out that historically the controls of the different brake systems were separate not integrated and points to Kettle, Jr. (U. S. Patent no. 5,984,427) as proof of the problem and its time frame (which is roughly the same period of time as the initial filing of the oldest parent of this case). The examiner, on further consideration, has decided that a rejection under 103 is not proper.

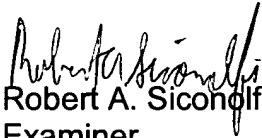

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
